123 Health Way, Medical City, MC 54321
Department of Bariatric Surgery

OFFICIAL MEDICAL RECORD

Patient Name: Michael Davis
Date of Report: January 08, 2026
Procedure Category: Bariatric Surgery

Clinical Information

ICD-10 Codes: E66.01 (Morbid obesity), K21.9 (GERD)
CPT Codes: 43644 (Laparoscopic gastric bypass, Roux-en-Y)
Estimated Cost: \$18,500

Clinical Justification

BMI 45, severe GERD. Gastric bypass is indicated as it addresses both obesity and reflux more effectively than sleeve.

Detailed Treatment Planning

Pre-surgical optimization including sleep study. Laparoscopic Roux-en-Y gastric bypass. 2-day hospital stay. Lifelong vitamin supplementation and quarterly labs.
